GRAND CRU ROSÉ

THE GRAND CRU ROSÉ

A composition of Aÿ, Bouzy and Avize Grands Crus with a delicate balance between Pinot noir and Chardonnay grapes (80% and 20% respectively). Louis Dubosquet Grand Cru Rosé is then stored in cellars for several years to encourage the development of its exceptional freshness and minerality.

Louis Dubosquet Champagne Grand Cru Rosé is presented in a traditional 19th style bottle with a pink gilded label made by master goldsmiths. Each bottle is identified by a serial number engraved in the glass and recorded on a watermarked certificate.

The cork, according to the Royal Ordinance dated 1735, is fastened, not by a metallic muselet, but by a crossed string with a seal identifying the authenticity and elegance of this exceptional Champagne.

Due to its exclusively Grand Cru provenance, it has exceptional finesse, intensity and minerality. With a luminous clear pink colour, this Rosé Champagne exudes a wide range of aromas and flavours, in particular red berries, notably raspberries and wild strawberries. The palate is lively with a finish dominated by wild strawberry.

Only a few thousands of bottles each year are available for sale worldwide.
